

Vespa Segway

Spanish design house Bel & Bel have given a cool-upgrade to the uncool segway, they have combined two of the most distinctive vehicles on the roads and created the Vespa Segway. Named Zero Scooter, the creative vehicle is actually made with real parts from the iconic Vespa and can travel up to 21 miles on one charge at speeds of up to 12 mph. The quirky scooter is made to order and can be customized by color and finish. If you're gonna ride a segway, you might as well do it in style...
